

**MANAGEMENT BOARD REPORT
ON THE ACTIVITIES OF THE COMPANY
PROCHEM S.A.
IN 2022**

Warsaw, April 28 2022

1. Principles of presentation of financial statements

Principles of preparation of the separate financial statements of the Prochem S.A. for 2022 have been included in Explanatory Notes to the financial statements.

2. Overview of the basic economic and financial volumes disclosed in the annual financial statements and presentation of the development prospects of the Issuer in 2023

In 2022 the Company achieved revenues from basic activity i.e. sale of engineering services and construction services in the amount of PLN 149.3 million. They are PLN 38.9 million lower than those achieved in 2021. The decrease occurred in the execution services segment, where sales revenues were by 34% lower than in the previous year. It also had a significant impact on the effects of operating activity in 2022, which closed with a loss of PLN 5.9 million.

Company is implementing several large, long-term contracts for design services, which in 2023 will allow to maintain high revenues and a positive margin in this segment of services. Whereas, a possible decrease in new inquiries received by Issuer and resulting from the potential crisis caused by coronavirus pandemic and the effects of ongoing war in Ukraine may pose a threat to the development of the Company.

3. Description of significant risk factors and threats to the activity of the Issuer

Company Prochem S.A. is exposed in its activities to the following types of risks and threats:

3.1 Economic fluctuations in the investment market

The company provides services in the investment market, characterized by a large scale of fluctuations in demand, strongly related to the general macroeconomic situation of the country, which is currently strongly influenced by the coronavirus pandemic, high inflation and the situation related to the consequences of the war in Ukraine. Methods used by the Company to limit the negative impact of these factors on financial results (accumulation of financial reserves, diversification of services provided, using appropriate IT tools and solutions), may not fully neutralize this risk.

3.2 Possibility of threats occurrence during the performance of contracts

Types of activity conducted by PROCHEM S.A., in particular, the preparation and management of technically complex investment projects, often implemented on the basis of contracts concluded under conditions of a strong price competition, cause that there is a constant risk of the technical and financial problems occurrence in this scope.

3.3 Dependence on the staff

Raising the quality of services provided, undertaking the implementation of complicated production technology projects, the use of modern IT systems, and the work for the renowned clients require from the staff the highest professional qualifications. Acquiring such people, especially in the situation of the liberalization of the European labor market can be difficult. The Company is trying to minimize such treat by raising qualifications of the staff employed and using incentive programs associating employees with the company.

3.4 Exchange rate risk

Part of contracts for the sale of services is concluded with foreign companies in foreign currencies (EUR, US\$). In the event of a significant fluctuation in the exchange rate of the national currency, this may have a significant impact on the Company's results. This risk is partially mitigated in a natural way i. e. through the purchase of equipment and services necessary for the execution of these contracts abroad, as well as acquisition of appropriate financial instruments.

3.4 Risk of dependence on significant service buyers

The execution of contracts for implementation with a significant value by the Company requires significant expenditures to be incurred on the purchase of services and equipment, which are then sold to the customer in the form of a ready facility. Lack of proper correlation between the expenditure incurred and proceeds from the execution of a contract with a customer may involve necessity of the use of external financing by the Company, and in special circumstances, may cause for the Issuer even temporary loss of a financial liquidity. Such risk is largely hedged by appropriate provisions in the contract with the client, under which the client is obliged to successively return the expenses incurred during the execution of the order.

4 Statement of application of principles of corporate governance in the Company Prochem S.A. in 2022

By Resolution No. 13/1834/2021 of the Stock Exchange Council of March 29, 2021, new corporate governance rules for companies listed on the WSE Main Market were adopted. This is subsequent version of the set of corporate governance rules applicable to companies listed on the WSE Main Market. The new rules entered into force on July 1, 2021. In connection with the above, from July 1, 2021, the Company applies the principles contained in the document "Best Practices of Companies Listed on the Warsaw Stock Exchange 2021" ("DPSN 2021"), except for the principles: 1.3.1., 1.3.2., 1.4., 1.4.1., 1.4.2., 2.1., 2.2., 2.11.6., 4.1., 4.3., 6.2., 6.3.:

In its business strategy, the company also takes into account the subject of ESG, in particular including:

1.3.1. environmental issues, including measures and risks related to climate change and sustainable development issues;

The principle is not applied.

Company commentary:

In the course of its operations, the company takes into account modern technological solutions, also paying attention to environmental aspects. However, the Company's business strategy is not a formalized document and is not communicated to the public, therefore it is not possible to include the ESG subject in the manner indicated in the above principle.

1.3.2. social and employee matters, concerning e.g. actions taken and planned to ensure gender equality, proper working conditions, respect for employee rights, dialogue with local communities, customer relations

The principle is not applied.

Company commentary:

The issues indicated in the above principle are important for the Company and are implemented in its current operations. The company takes care to ensure gender equality, proper working conditions, respect for employees' rights, as well as proper relations with contractors. However, the Company's business strategy is not a formalized document and is not communicated to the public, therefore it is not possible to include the ESG subject in the manner indicated in the above principle.

1.4. In order to ensure proper communication with stakeholders, within the scope of the adopted business strategy, the company publishes on its website information on the assumptions of its strategy, measurable goals, including in particular long-term goals, planned activities and progress in its implementation, determined by means of metrics, financial and non-financial. Information on the strategy in the ESG area should, among others:

1.4.1. explain how the decision-making processes in the company and its group entities take into account issues related to climate change, pointing to the resulting risks

1.4.2. present the value of the equal pay index paid to its employees, calculated as a percentage difference between the average monthly remuneration (including bonuses, awards and other allowances) of women and men for the last year, and provide information on actions taken to eliminate possible inequalities in this regard, together with the presentation of the related risks and the time horizon in which it is planned to achieve equality

The principles are not applied.

Company commentary:

The principles cannot be applied by the company due to the lack of public communication of a formalized business strategy.

2.1. The company should have a diversity policy towards the management board and the supervisory board, adopted by the supervisory board or the general meeting, respectively. The diversity policy defines the goals and criteria of diversity, e.g. in such areas as gender, field of education, specialist knowledge, age and professional experience, and also indicates the date and method of monitoring the implementation of these goals In terms of diversity in terms of gender, the condition for ensuring the diversity of the company's governing bodies is the minority share in a given governing body at a level not lower than 30%.

The principle is not applied.

Company commentary:

The company does not have a formalized diversity policy in place. The basic criterion when making decisions on the selection of persons to the Management Board and the Supervisory Board are the competences of the candidates, while recognizing the principle of non-discrimination of candidates for any non-substantive reasons.

2.2. Persons making decisions on the selection of members of the company's management board or supervisory board should ensure the versatility of these bodies by selecting persons to ensure diversity, enabling, among others, achieving the target ratio of the minimum share of minorities set at a level not lower than 30%, in accordance with the objectives set out in the adopted diversity policy referred to in principle 2.1.

The principle is not applied.

Company commentary:

The company does not have a formalized diversity policy in place. Persons making decisions on the selection of members of the Company's governing bodies are guided by the candidates'

competences, their education and professional experience as well as knowledge, while recognizing the principle of non-discrimination of candidates for any non-substantive reasons.

2.11.6. information on the degree of implementation of the diversity policy in relation to the management board and the supervisory board, including the implementation of the objectives referred to in principle 2.1.

The principle is not applied.

Company commentary:

The Company has not adopted a formalized diversity policy towards the management board and the supervisory board, therefore the information indicated in the above principle cannot be included in the report of the Supervisory Board.

4.1. The company should enable shareholders to participate in the general meeting using electronic means of communication (e-general meeting), if it is justified due to the expectations of shareholders reported to the company, provided that it is able to provide the technical infrastructure necessary to conduct such a general meeting

The principle is not applied.

Company commentary:

The Company's shareholding structure does not justify the introduction of the solutions referred to in the above principle, taking into account the proportionality and adequacy of the adopted solutions and the Company's individual needs.

4.3. The company provides publicly available transmission of general meetings in real time.

The principle is not applied.

Company commentary:

The Company's shareholding structure does not justify the introduction of the solutions referred to in the above principle, taking into account the proportionality and adequacy of the adopted solutions and the Company's individual needs.

6.2. Incentive programs should be structured in such a way that, among other things, they make the level of remuneration of members of the company's management board and its key managers dependent on the actual, long-term situation of the company in terms of financial and non-financial results and long-term increase in value for shareholders and sustainable development, as well as the stability of the company's operations.

The principle is not applied.

Company commentary:

The Company's "Remuneration Policy for Members of the Management Board and Supervisory Board" does not provide for the functioning of incentive programs in the Company. The principles

for remunerating Management Board Members are set out in contracts prepared by the Supervisory Board, based on the applicable Remuneration Policy. The remuneration of key managers is determined in a way aimed at attracting, retaining and motivating these people to properly perform their duties, adequately to the tasks performed and the responsibility incurred.

6.3. If one of the incentive programs in the company is a managerial option programme, then the implementation of the option program should be conditional upon the eligible persons meeting, within at least 3 years, financial and non-financial and sustainable development goals set in advance, realistic and appropriate for the company, and the purchase price of the shares by the entitled persons or the settlement of the options may not differ from the value of the shares from the period when the program was adopted.

The principle is not applied.

Company commentary:

The Company does not use an incentive scheme based on the managerial option scheme.

The full text of the set of corporate governance principles to which the Company is subject, along with a list of principles that the Company currently does not apply and a commentary in this regard, is available on the website of Prochem S.A. – www.prochem.com.pl.

5 Description of the Issuer's internal control system

Internal control is one of the functions of the ongoing management of the Company. Such control is being exercised directly by the Management Board, directors, proxies and other employees and other employees employed in managerial positions or entrusted with such a function.

PROCHEM S.A. has a comprehensive system of internal control, with the aim of to ensure timely and accurate disclosure of facts concerning all material elements of the company's operations. That contributes to obtain a complete knowledge of the financial position, results of operations, the Company's property and management efficiency. The scope of control includes above all:

- business activities of the company, basic and auxiliary,
- financial reporting and accounting settlements,
- compliance with the company's activity with the applicable laws, and with internal regulations,
- employment and wages.

Institutional internal control analyses the accomplished undertakings and documentation related to it. The main task of it is to carry out comprehensive checks in respect of the most important issues for the Company and collecting and elaboration of the information on the activities of the organizational units of the Company, selected economic problems and other issues that in the given period were

regarded as the most relevant by the Management Board of the Company. Apart from the institutional internal control, there is also the so-called functional control in the Company which is exercised by managers of various ranks. Managers perform the supervision over the employees subject to them, consisting in the checking of the state of accomplishment of tasks set.

Institutional internal control is exercised in PROCHEM S.A. mainly by services from financial and accounting departments, and also by the employees of the legal and organizational department. Part of the tasks of the internal control is carried out by teams and commissions appointed for this purpose.

Control activities are carried out in all phases of activity in the form of the preliminary control, current and next. Financial and accounting documents are subject to substantive, formal and accounting control. Information on formal and substantive correctness and calculation correctness bears signature in an identifiable manner (full name and surname), or bears the personal stamp of the authorized person and the date of approval of the document.

The internal control system which is functioning in PROCHEM S.A. ensures completeness of the recognizing of the economic operations, and the proper qualification of source documents as well the correct valuation of the resources had at disposal at particular stages of the registration, and thus ensures the correctness of preparation of the financial statements and enables the Management Board to carry out the Company's activities based on a verified and complete information.

22 Explanation of differences between the achieved financial result and forecasts

In 2022 the Company did not publish forecast of financial results.

23 Assessment of the management of financial resources

In 2022 any disruptions of financial liquidity in Prochem S.A. did not occur. Both the state of owned financial resources and available credit lines allow for timely fulfillment of incurred obligations.

24 Assessment of the feasibility of investment plans

Since 2013 the subsidiary Irydion carried out the construction and commercialization of the office and service building in Warsaw under the name of Astrum Business Park. In 2022, the process of selling the office building was completed. Currently, the Issuer is analyzing the possibilities of safe investment of funds obtained as a result of the transaction.

25 Assessment of factors and unusual events affecting the financial results achieved

The financial results achieved in 2022 were significantly affected by a strong increase in the prices of construction goods and services as a result of the war in Ukraine that began in February 2022. There were restrictions on the availability of certain goods and extension of delivery dates for equipment and materials. As a result of this situation, logistic problems occurred and a significant increase in the costs of implementation contracts conducted by the Company. The losses achieved in this business segment were partly offset by the good result of the design and engineering services segment, thanks to the full use of the Company's potential in this area in 2022. The high value of financial income is the result of receiving the dividend for 2021 from the subsidiary Irydion Sp. z o.o. . The funds for its payment were obtained from the sale of the Astrum Office and Service Center in 2022. As a result, the Company achieved a record net result of PLN 26.3 million.

26 Characteristics of external and internal factors important for the development of the Issuer's enterprise in 2023

For the activities of Prochem S.A. in 2023, the macroeconomic environment will have a significant impact, in particular the course of the war in Ukraine, the possibility of obtaining funds from the EU for the National Reconstruction Plan, interest rates on loans, the level of inflation and the related prices of energy, materials and construction services. All these factors have a significant impact on the decisions taken by potential customers of Prochem S.A. (in particular industrial companies) to start new investment plans.

The Management Board of Prochem S.A. monitors the current situation with particular attention and takes appropriate actions to adapt their potential and the scope of services provided to the new conditions. Currently, most of the orders held by the Issuer concern services for investments in the field of new technologies, electromobility, diversification of energy sources (cogeneration, hydrogen production installations), which, in the Issuer's opinion, may mitigate the negative effects of the macroeconomic situation on the entity's operations.

27 Changes in the basic principles of management of the Issuer and its Capital Group

In 2022 there were no significant changes affecting the principles of management of the Issuer and of its Capital Group.

28 Description of the contracts concluded between the Issuer and managing persons providing for compensation

Contracts of employment concluded by the Issuer with the managing persons provide for compensation in the amount of remuneration for six months in case of dismissing from office of a member of the Management Board, except when the dismissal resulted from reasons attributable to the managing person's obvious fault.
