

**REPORT OF THE MANAGEMENT BOARD
ON THE BUSINESS ACTIVITY
OF THE CAPITAL GROUP
OF PROCHEM S.A.
IN THE YEAR 2011**

Warsaw, 27 April 2012

1. Description of principles of drawing up the financial statement

The description of principles according to which the consolidated financial statement of the Capital Group of Prochem S.A. for the first half of 2011 was drawn up, was placed in Notes to this Report.

2. Financial basic volumes revealed in the annual financial report and the presentation of prospects of the development of the Capital Group of Prochem S.A. in the year 2012.

In the year 2011 Capital Group of Prochem S.A. achieved revenues from basic activity in the amount of PLN 178 m. They are over PLN 59 m higher than those achieved in 2010. Such significant increase results from significant increase of the income from contracts for implementation noted mainly by dominant entity. On the operational level the Group reached profit of PLN 7.6 m. The net profit for 2011 amounted to PLN 5.6 m and was PLN 0.7 m higher than reached in the previous year.

The macroeconomic surrounding will have the significant effect on the operations of the Capital Group of Prochem S.A. in 2012, in particular the state of the Polish economy which in the significant way influences decisions taken by the potential clients (in particular industrial companies) to begin new investment objectives. A preparatory work being aimed at starting the accomplishment of large-scale investments in the energy, chemical industry and the environmental protection is still being conducted. It will be reflected in the number of orders obtained by the companies belonging to the Group, and in effect in financial results achieved in 2012. The Management Boards of companies belonging to Capital Group of PROCHEM S.A. are monitoring the current situation with the particular attention and if necessary are prepared for taking proper action being aimed at adapting its potential to new opportunities.

3. Description of essential risk factors and threats to activity of Capital Group of Prochem S.A.

The companies belonging to Capital Group of Prochem S.A. are exposed in its activity to the following kinds of risks and threats:

3.1 Economic fluctuations on the investment market

Part of companies belonging to Capital Group provide services on the investment market being characterized by a large scale of hesitations of the demand strongly connected with the general macroeconomic situation of the country. Methods of limiting the adverse impact of this factor on financial results (concentrating reserves, diversification of provided services) applied by the Group cannot fully neutralize this risk.

3.2 Dependence on the staff

The risk of making conditional on the staff is appearing particularly in the dominant entity. The refinement of provided services, undertaking the completion of complicated technological projects, using modern computer systems and the work for customers of high reputation requires the highest professional qualifications from employees. Recruiting this sort of persons, peculiarly in the situation of the liberalization of the European labour market can be difficult. The company is trying to minimize this threat by raising qualifications of the employed staff and applying incentive programs associating employees with the company.

3.3 Exchange rate risk

Part of contracts for sale of services (mainly of dominant ENTITY) is concluded with foreign companies in foreign currencies (EUR, USD). In case of considerable stiffening of the domestic currency it can have influence on the performance of the Group. Partly this risk is levelled out in the natural way through the purchase of devices and the services necessary for the accomplishment of these contracts abroad, as well as through the purchase of relevant financial instruments.

3.4 Risk of dependence on important buyers of services

Such risk is appearing mainly in the company belonging to Capital group and dealing with maintenance of industrial facilities and installations. Such activity requires the considerable capital expenditures to be borne on the purchase of spare parts, tools and employment of skilled staff. Loss of important buyer of services may lead to temporary financial problems of this company. Relevant stipulations of a contract providing that the customer is obliged to refund borne capital expenditures related to execution of the order protect to a large extent against such a risk.

3.5 Risk connected with the lengthy procedure in the dispute with PERN S.A.

In the face of considerable extending of judicial proceedings in the dispute with PERN SA which was begun in 2006 and is conducted currently by the District Court in Warsaw concerning accounting for the contract given up on 10 November 2005 for construction management of an investment project under the name "Pipeline in a section from the ST- 1 Adamowo - to raw material base Plebanka", a risk exists of the necessity to fulfil obligations towards sub-suppliers by PROCHEM S.A. concerning seized guarantee deposits before regaining them from PERN SA in 2011. Such a risk according to the opinion of the Company is minimal however the Management Board of PROCHEM S.A. is taking into account the need to accumulate adequate financial means for this purpose.

4. Oświadczenie o stosowaniu w Spółce Prochem S.A. zasad ładu korporacyjnego w 2011 roku.

The Management Board of PROCHEM S.A. is declaring hereby that in the year 2011 the principles of corporate governance accepted in the company in the wording according to the Attachment to the Resolution No 12/1170/2007 of July 4th 2007 of the Council of the Stock Exchange were fully respected. The full text of principles of corporate governance which the issuer is subject to, is available on the website of PROCHEM S.A. – www.prochem.com.pl.

- risk of the payment unreliability,
- risk of disadvantageous settling the litigation with PERN S.A.

The risk management in individual areas consists in:

- monitoring of generating risk phenomena,
- taking action aiming at lowering the level of risk.

In the scope of individual risks the situation is as follows :

- risk of economic fluctuations on the investment market
 - monitoring of the macroeconomic situation and in chosen industries,
 - object diversification (development of the activities related to engineering services – maintenance and development undertakings),
 - field diversification (expanding of export)
 - collecting reserves
- risk of losing of key employees,
 - monitoring of the level of employment, rewarding and fluctuation of the staff,
 - monitoring of the labour market and the level of the remuneration on the market,

- maintaining the system of trainings and raising qualifications,
 - incentive programs for key employees,
 - active system of the recruitment - the environmental cooperation and maintaining relations with colleges.
- foreign exchange risk,
 - monitoring and forecasting the courses of exchange,
 - dealing in foreign exchange,
 - purchase of devices and services in currencies of contracts,
 - maintaining high-level domestic sales.
 - risk of making conditional on important buyers of services,
 - monitoring of the performance of contracts with important buyers of services,
 - stipulations of a contract containing amortizing elements,
 - maintaining the partnership relations with regular customers.
 - risk of the payment unreliability
 - monitoring of the financial standing of key contracting parties before and in the process of the execution of the contracts,
 - applying special debt collection procedures.
 - risk of disadvantageous settlement of action against PERN S.A.
 - monitoring of the legal status by the Management Board and the team of lawyers.

Both the identification of risk factors and monitoring them as well as an applied system of actions reducing the risk are in PROCHEM S.A. on the good level and implemented strategy of development and diversification is supporting the reducing the part of risks and is leading to the professionalism in applied instruments.

Tasks of the Committee of Audit according to Art. 86 of the Law on Statutory Auditors and their Self-government, Entities Entitled to Audit Financial Statements and about the Public Supervision of 7 May 2009 were entrusted to the Supervisory Board of Prochem S.A.

5. Proceedings at law, competent authority for the arbitration or public administration body

PROCHEM S.A. is still a party in the legal proceeding regarding settlement of accounts for the contract given up on the day 10.11.2005 for construction management of an investment project under the name "Pipeline in a section from the ST- 1 Adamowo - to raw material base

Plebanka" concluded with PERN S.A. PROCHEM S.A. filed a suit demanding the payment of PLN 41,301 thousand as the final settlement of contract. PERN S.A. filed a counter-claim against PROCHEM S.A. demanding the payment of PLN 129,444 thousand as the settlement of contract. On 18 January 2008 District Court in Warsaw delivered a judgment regarding this case by virtue of which rejected a claim filed by PROCHEM S.A. (Consortium GRI) and also refused a counter-claim filed by PERN "Przyjaźń" S.A. It results from grounds for a judgment delivered by Court that:

- The Court admitted a claim for payment of the amount of PLN 41,301 thousand by PERN "Przyjaźń" S.A. as being rightful as for the principle, at the same time the Court judged, that this liability wasn't still due
- The Court acknowledged that there is no ground for admission of a counter-claim filed by PERN "Przyjaźń" S.A.

After getting acquainted with the grounds for the judgment in writing PROCHEM S.A. lodged an appeal from this judgment in this part, in which the District Court declared claim for the payment of the amount of PLN 41,301 thousand by PERN "Przyjaźń" S.A. premature and still undue and in this part in which PROCHEM S.A. demanded taking over by PERN "Przyjaźń" S.A. obligation towards contractors/suppliers to return guarantee deposits.

PERN "Przyjaźń" S.A. lodged too an appeal from the judgment, in which District Court rejected their claim from filed counter-claim.

On 26 August 2008 Court of Appeal in Warsaw delivered a judgment regarding the appeal lodged by PROCHEM S.A. from the judgment of District Court of 18 January 2008 regarding case at law against PERN S.A. for payment of amount of PLN 41 301 as the final accounting for of contract for construction management of an investment project under the name "Pipeline in a section from the ST- 1 Adamowo - to raw material base Plebanka".

Court of Appeal in mentioned above judgment decided to relegate the case to the District Court for their decision consisting in making settlement of accounts for the mentioned above contract. It results among others from the grounds delivered by Court of Appeal that claim filed by PROCHEM S.A. regarding accounting for contract is not premature as it was earlier recognised by the District Court. Apart from that the Court of Appeal stated that accounting for the contract should be made pursuant to the provisions of the contract. This stating is in compliance with position in a case of PROCHEM S.A.

PERN S.A. lodged the petition for the cassation into the Supreme Court from the part of this sentence. On the meeting on 15 January 2010 the Supreme Court dismissed the petition for the cassation stating the lack of reasonable bases which require the evaluation with reference to the appealed part of the judgment.

On 12 August 2010 the case was held before the district court in Warsaw, during which the court decided upon appointing the expert, who will finally make accounting for arguable

contract according to recommendations of the court of appeal. In April 2011 the case records were sent to the court expert who should deliver the appropriate opinion in April 2012. Until the day of publishing the financial statement for 2011 such opinion wasn't delivered.

The value of these proceedings exceeds 10 % of the equity of the Issuer.

Apart from that total value of other proceedings separately for the group of obligations as well as the group of the debts, doesn't exceed 10 % of the equity of the Issuer.

- a) Own bank guarantees of the good performance of services – PLN 13,481 thousand;
- b) L/C for delivery – PLN 1,719 thousand;
- c) Guarantee of the payment of the rent – PLN 832 thousand;
- d) Warranty given for tenders – PLN 450 thousand.

The total sum of conditional amounts due from the title of received guarantees of the good performance and the statutory warranty as at 31 December 2011 amounts to PLN 7,966 thousand.

In 2011 companies belonging to the Group didn't grant guarantees of the credit repayment to affiliated entities.

6.9 Description of the use of takings from the issue

In 2011 Companies belonging to Capital Group didn't issue any securities.

6.10 Explaining differences between achieved financial results and the forecast

In 2011 Capital Group of Prochem S.A. didn't publish the forecast of financial results.

6.11 Evaluation of the management of financial means

During the year 2011 disturbances to financial liquidity in Capital Group of PROCHEM S.A. didn't appear.

Companies belonging to the Group are maintaining such a state of own financial means which enables them to keep up their payments timely. No circumstances exist which would make impossible to fulfil obligations by the companies.

6.12 Appraisal of possibility of implementation of investment objectives

In a Capital Group are included special purpose companies (Irydion, Elmont Inwestycje, Elpro, Iryd), formed for implementation of development projects, on which in the nearest period the investment activity of Capital Group of PROCHEM S.A. will focus. At present these companies are in possession of appropriate real estates and have or are conducting the intensive preparatory work being aimed at obtaining essential permits for the implementation of an investment project. These projects will be financed based in a large measure on the external financing. At present advanced negotiations are being conducted aiming at gaining of possible co-investor by companies Elmont Inwestycje and Irydion for the construction of office and commercial buildings in Warsaw and Cracow.

6.13 Evaluation of factors and untypical events affecting achieved financial results

In the assets of balance sheet of PROCHEM S.A. an amount of PLN 17,363,930 is appearing in the item of the trade receivables from the title of guarantee deposits seized by PERN S.A. as

security for any claims towards the Consortium Prochem/Megagaz (GRI) on account of the statutory warranty and contractual guarantees resulting from Agreement no 20047 of 27 August 2002. The existence of this amount due and its sum in previous years were confirmed by PERN S.A.

Simultaneously because of the fact that the whole of work and supplies connected with the completion of a contract No 20047 was executed by the Consortium with the help of subcontractors and suppliers, as security for warranties given by these companies a part of their remuneration was seized by PROCHEM S.A. as the guarantee deposit in total amount similar to those seized by PERN S.A. Pursuant to agreements concluded with mentioned above companies return of guarantee deposits seized by GRI to subcontractors and suppliers will be done after the expiry of statutory warranty and guarantee period, but not earlier than after the return of the guarantee deposit seized by PERN to PROCHEM S.A.

According to GRI the time of the statutory warranty and the guarantee expired on 13 February 2009. Therefore PROCHEM S.A. demanded return of the seized amount of the guarantee deposit from PERN S.A. Above request remained unanswered. Irrespective of it, from the trial carefulness, the amount of the seized guarantee deposit was filed for judicial proceedings being aimed at final settlement of accounts for the contract No. 20047 of 27 August 2002 which at present is being conducted again before the District Court in Warsaw.

Creating the revaluating write-off covering the value of the amount due on account of seized guarantee deposits in the opinion of the Management Board is unjustified, since the above amount is in the indissoluble way connected and protected (both as for the amount as well as the date) with guarantee deposits given by subcontractors and suppliers and seized by GRI.

According to the evaluation of the Management Board of PROCHEM SA even if PERN will not return the seized guarantee deposits, there is a great probability of regaining these amounts due even this year within the framework of final accounting for the contract which is an subject matter of judicial proceedings pending in the court.

6.14 Outside and internal factors essential for the development of the Capital Group of Prochem S.A. in the year 2012
